- Experience working in an Agile Scrum environment

PROJECTS

Sanofi Genzyme

- Application's primary purpose is to provide treatment for 6 rare diseases
- It has modules such as Patient Registration, Patient Search, Stock Purchase, Stock Transfer, Session generation and completion, Home Infusion, User Management
- Prepared Test Scenarios, Test Cases and Test Data
- Created and enhanced numerous test scripts to handle changes in the objects, in the application's GUI and in the testing environment using Selenium WebDriver
- Created selenium based scripts using POM and TestNG

Improving performance of vapour compression refrigeration by using eco-friendly refrigerant

- This involves usage of eco-friendly refrigerant R600a instead of R134a which improves performance of vapour compression refrigeration system. The main purpose we are using R600a instead of R134a is because R600a have low GWP and ozone depletion potential when compared to R134a.

EDUCATION

Mechanical Engineering Vellore Institute of Technology

08/2014 – 05/2018

GPA - 8.71

SKILLS

Java

SQL

Selenium

TestNG

Azure DevOps

ACHIEVEMENTS

Completed in top 3 percentile among students appeared for JEE Mains

Selected for the district level cricket team

CERTIFICATES

CCA-175 Spark and Hadoop Developer
